Quality Excellent

You never know sometimes what type of customer service you may receive when walking into an establishment. I was very pleased to be greeted by smiling faces and friendly attitudes today at Humphrey & Sons Jewelers. I had put off having clasps replaced on some chains and pearls that had belonged to my Mother. I also had some silver and just a little gold to sell for cash. In addition, a watch battery and a ring to be sized. With all that "little stuff" I was really afraid they would consider me wasting their time as they were getting ready for Bike Week. I was very pleased with Patty's help and patience. The prices were also very fair and I ended up making enough money on my old jewelry to pay for the upgrades. I will always recommend Humphreys for all your jewelry needs.
